PPTA Member P14418 | World Physiotherapy | Portfolio: maliha-masud-dpt.vercel.app

PROFESSIONAL SUMMARY

Early-career Doctor of Physiotherapy (CGPA 3.58/4.00) practising as a Clinical Physiotherapist at Madina Teaching Hospital. Evaluates neuromuscular and musculoskeletal conditions, manages tailored rehabilitation protocols, and delivers assessment, exercise prescription, manual therapy, electrotherapy, patient education and clinical documentation across musculoskeletal, neurological and post-operative pathways. Supports multidisciplinary care and clinical teaching in physiotherapy OPD. Member of PPTA and World Physiotherapy. Ready to adopt the registration pathway required for a job offer abroad.

CLINICAL EXPERIENCE

Clinical Physiotherapist

Madina Teaching Hospital (MTH), Faisalabad, Pakistan | 18 Dec 2024 - Present

- Evaluate neuromuscular and musculoskeletal conditions while managing tailored rehabilitation protocols for diverse patient demographics.
- Restore functional mobility through therapeutic exercise, mobility training, manual therapy and modality-based care.
- Apply electrotherapy and physical agents as indicated (ultrasound, TENS, heat and cold therapy).
- Educate patients and caregivers on posture, activity modification, home exercise programmes and prevention strategies.
- Maintain accurate clinical documentation and progress notes to support continuity of care.
- Collaborate with physicians, nurses and allied colleagues in a multidisciplinary teaching-hospital environment.

Lectureship - Physiotherapy OPD

Madina Teaching Hospital (MTH), Faisalabad, Pakistan | 27 Oct 2025 - 27 May 2026

- Provided clinical instructional guidance, bedside assessment protocols and procedural demonstrations for students and junior clinical interns.
- Reinforced professional communication, patient dignity and safe handling practices during supervised teaching encounters.
